

2024 Cancer Genomics Consortium Annual Meeting August 4 - 7, 2024, St. Louis, MO, USA

The CGC Annual Meeting is the preeminent gathering for laboratorians, clinicians and researchers with a shared interest in early adoption, performance and interpretation of leading-edge technology for cancer and constitutional genomics. The collegiality of the [Cancer Genomics Consortium](https://www.cancergenomics.org) provides a unique educational opportunity to advance clinical diagnostics using genomic technologies (FISH, microarray, massively parallel sequencing, etc.) and to improve the data processing that accompanies these technologies. We invite you to participate in 2024.

In 2023, the CGC hosted its second hybrid meeting with more than 400 participants representing 20 countries. We welcomed 292 people in St. Louis and an additional 114 people joined the meeting virtually. In the summer of 2024, we will continue the **hybrid (in-person + virtual)** format that will feature in-person platform presentations, workshops, networking sessions, an exhibit hall, poster sessions, round table discussions, the science café and other interactive opportunities with our industry supporters. We will also provide virtual content streaming, live virtual Q&A, and CME and PACE credit for all attendees.

Anticipated Program Highlights in 2024:

- Clinical applications of genome sequencing, microarray and genome mapping approaches
- Clinical interpretation of sequence and copy number variants
- Bioinformatics, clinical pipelines, databases, and data sharing for publication
- Invited presentations from leading clinical laboratory directors, geneticists, oncologists, pathologists, and bioinformaticians
- Workshops to showcase challenging/teaching cases
- Improving equity in access to genomic testing

Highlights for Exhibitors in 2024:

- Science Café
- Small private meeting space rental available
- Additional marketing options, including multiple support options for the CGC Social

The cost of supporting CGC 2024 will not increase from 2023, so we encourage you to submit your registration early to ensure your company's participation. If you have questions, please e-mail Karla Gay (karla@cancergenomics.org). Details on levels of support and confirmation can be found on the next page.

Finally, if you are interested in serving as a founding member of the CGC Corporate Council, please let us know. Our Development Committee will be launching the program in 2024.

Sincerely,

A handwritten signature in black ink that reads 'Jane Houldsworth'.
