

## CREDIT INFORMATION

### CME

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the North Carolina Medical Society (NCMS) through the joint providership of Mountain Area Health Education Center (MAHEC) and UNC Center for Heart and Vascular Care.

MAHEC is accredited by the NCMS to provide continuing medical education for physicians. MAHEC designates this live activity for a maximum of **21.50** AMA PRA Category 1 Credit(s)<sup>™</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity.

MAHEC adheres to the ACCME Standards regarding industry support to continuing medical education. Disclosure of faculty and commercial support relationships, if any, will be made known at the time of the activity.

### DISCLOSURE/CONFLICT RESOLUTION

#### Staff and Content Validation Reviewer Disclosure

The staff involved with this activity and any content validation reviewers of this activity have reported no relevant financial relationships with commercial interests.

#### Resolution of Conflicts of Interest

In accordance with the Standards for Integrity and Independence in Accredited Continuing Education, the Mountain Area Health Education Center implemented mechanisms, prior to the planning and implementation of this CME activity, to identify and mitigate conflicts of interest for all individuals in a position to control content of this CME activity.

#### Planning Committee/Faculty Disclosure

The majority of speakers and/or planning committee members have disclosed they have no relationship(s) with industry to disclose relative to the content of this CME activity:

The following speakers and/or planning committee members have disclosed that they have relationship(s) with industry. The presentations were reviewed by the CE Planner who found that there were no conflicts of interest.

- Deborah Ritter – Reports being on the Cancer genetics journal editorial review board, and receives a small stipend of less than 3k for this work.
- Rebecca Smith – Reports planning on giving a presentation for Oxford Gene Technology in a vendor portion of the meeting, which will support \$500 of travel costs to the meeting. In Smith's role as a lab director, they are a consumer of OGT's and they have asked to give experience with their product in a non-CME vendor presentation at the meeting. Smith's poster has nothing to do with OGT nor any of their products and will not mention OGT in any way.
- James Yu – Reports being an employee of Bionano Genomics.
- Katie M. Campbell – Reports being an independent contractor and receiving consulting fees from Tango Therapeutics. Reports being an independent contractor and receiving consulting fees from PACT Pharma. Reports ownership interest and a shareholder for Geneoscopy LLC.
- Soheil Shams – Reports being an employee, stock owner, and stock option holder for Bionano Genomics.

## CREDIT INFORMATION

- Andy Wing Chun Pang – Reports being an employee and receiving salary from Bionano Genomics.
- Fernando Lopez-Diaz – Reports being an employee and receiving salary from Neogenomics Laboratories.
- Jung Joo Moon – Reports currently working for the Cellgenemedix, which is the distributor of the Good Gene, Inc. (Seoul, South Korea). Data collection for this study was not undertaken while Joo Moon was affiliated to Good Gene, Inc.
- Brendan Reardon – Reports having an institutional patent filed on methods for clinical interpretation.
- Elaine R Mardis – Reports being on the supervisory board membership and having stock with Qiagen NV. Mardis has a board membership and RSUs with Singular Genomics Inc. They have received honoraria and stock options from Scorpion Therapeutics LLC and PACT Pharma LLC.
- Laure Fresard – Reports being an employee and receiving salary from Invitae.
- Madina Sukhanova – Reports receiving royalties for recorded lectures from The Osler Institute.
- Segun Jung – Reports being an employee of NeoGenomics Laboratories and receiving salary and stock.
- Xiaoshan Shao – Reports being under a license agreement between Genentech and the Johns Hopkins University, Shao and the University are entitled to royalty distributions related to technology described in the study.
